most particularly and emphatically, the CD5 boundaries as set forth in this Final K-2.5 Map. We specifically urge our Councilman Paul Koretz along with the other City of Los Angeles councilmembers to maintain our CD5 boundaries exactly as they are set forth in the FINAL K-2.5 MAP in the FINAL MAP approved by the City Council of Los Angeles. We also express our empathy for those communities of interest seeking to maintain their historic presence within various districts and urge our City Council to maintain our historic and long-standing Jewish community within our CD5 boundaries."
