

- b. The proposed project substantially complies with Section 9, Parking, of the Specific Plan. The subject tenant space is allotted 3 parking spaces within the 24-space parking lot that serves this multi-tenant building. The proposed restaurant dining space of 661 square feet is required to provide 1 parking space per 200 square feet of the dining area. Thus, the 3 parking spaces satisfy the parking requirement.

2. The project incorporates mitigation measures, monitoring measures when necessary, or alternatives identified in the environmental review, which would mitigate the negative environmental effects of the project, to the extent physically feasible.

Mitigation measures are not necessary for the subject project, and there are no potentially significant negative environmental effects associated with the project. The Director of Planning has determined that the project is Categorically Exempt from the environmental review because the proposed project involves solely a change in use to another allowable use per the LAMC and Specific Plan with no changes to the subject building, pursuant to Article III, Section 1, Class 21, and Category 2 of the City CEQA Guidelines.
